### **DETAILED ACTION**

Claims 1-10 and 12-15 are pending in this application.

#### ***Action Summary***

**The rejection of claims 4, 10 and 12-15 under 35 U.S.C. 112, second paragraph, as being indefinite is maintained for the reasons stated in the office action dated September 25, 2007.**

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4, 10 and 12-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicants in the claims recite the phrase "derivatives". Webster's Dictionary defines a derivative as "a substance derived from, or of such composition and properties, that it may be considered as derived from, another substance by chemical change, esp. by the substitution of one or more elements or radicals". Based on this definition it is unclear what the derivative is.

#### ***Response to Arguments***

Applicant's arguments filed January 22, 2008 have been fully considered but they are not persuasive.

Art Unit: 1616

Applicant argues that there is no requirement under the law to list the specific derivatives in order to comply with the definiteness requirement. Applicant also cites a chemical definition of derivatives and patents that have been issued reciting “mannose derivatives” in the claims. The examiner agrees with respect to applicants' argument of no requirement under the law to list the specific derivatives in order to comply with the definiteness requirement. The way the claims are written, applicant is claiming all possible derivatives (i.e. salts, hydrates, esters, etc.) When looking to the specification for examples of the mannose derivatives, the examiner notes those listed (i.e. phenyl mannoside, mannose-6-phosphate, etc.). It is the position of the examiner those listed does not cover the each and every possible derivative known. The applicant is enabled for those derivatives listed in the specification.

### ***Allowable Subject Matter***

Claims 1-3 and 5-9 remain allowed for the reasons stated in the office action dated September 25, 2007.

### ***Conclusion***

Claims 4, 10 and 12-15 remain rejected.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
